

An accessory component of the Henry® 1-2-3 Moisture Control System™

Henry® Sheathing Tape

Excellent adhesion with a range of barriers

Compatible with all Henry® weather-resistant barriers – WeatherSmart®, Jumbo Tex®, Hydro Tex™, and PlyDry® – **Henry Sheathing Tape** provides an outstanding seam and lap seal.

Henry Sheathing Tape is considered an accessory to the Henry® 1-2-3 Moisture Control System™ of flashings, weather-resistant barriers and sealants. The system takes the guesswork out of weatherization so you can build with confidence. **Henry Sheathing Tape** may carry a 15-year warranty. (See henry.com/warranty for details.)

Features and benefits

-  Aggressive acrylic adhesive
-  Optimized performance with all Henry weather-resistant barriers.
-  Excellent balance of tack, peel and tensile strength
-  Adheres in temperatures down to 10 °F (-12 °C)
-  UV Resistance up to 18 months

Roll dimensions	1.875" x 55 yards 3" x 55 yards
Tensile strength	37 lbs./inch
Elongation	110%
Peel adhesion (stainless steel)	20 oz./inch
