Two superior products in a single roll

*Henry® Two-Ply Hydro Tex™* combines our *Super Jumbo Tex® 60 Minute* building paper with our *WeatherSmart® Drainable* drainage wrap, bringing these two proven layers of protection together in one roll. *Hydro Tex* delivers much higher drainage performance than standard dual-ply weather-resistive barriers and saves the labor cost of wrapping the building twice with two separate products.

*Hydro Tex* is designed to protect homes and commercial buildings from the internal wall damage caused by water intrusion and is backed by an industry-leading 15-year warranty that covers defective product and provides materials PLUS labor for warranted repairs when used as part of the Fortifiber® 1-2-3 Moisture Control System™ by Henry.

**Features and benefits**

- More than 95% drainage efficiency
- Excellent balance between water resistance and permeability
- Crush-resistant drainable pattern
- Labor saving two-ply protection in one pass
Performance standards you can trust

**Hydro Tex** is a scientifically advanced barrier combined with a professional Grade "D" building paper, designed for use within a variety of exterior wall assemblies. It provides excellent protection from wall damage due to water intrusion and condensation.

**Limitations:** Product should be covered as soon as possible. Inspect product to ensure it is free of any protrusions or damage which may detract from the weather-resistant barrier integrity. Holes, tears or punctures should be sealed with Moistop® Sealant or Henry Sheathing Tape. This product is not recommended for horizontal, roofing or below grade applications.

**Installation:** Hydro Tex should be installed in accordance with the local applicable building code. Weather-resistive barriers should be applied horizontally, and all vertical joints should be lapped a minimum of 6”. Ensure that the Super Jumbo Tex side (black layer) is installed to the outside. Do not tape horizontal or vertical seams.
