

# Henry<sup>®</sup> Prodeq<sup>™</sup> System

A spray-applied, instant-setting waterproofing system

# The Henry<sup>®</sup> Prodeq<sup>™</sup> System

A comprehensive waterproofing system for plaza decks, roofs, split slabs and terraces, the Henry Prodeq System is fully warranted for up to 25 years under the Henry Gold Seal Warranty program.\* Its installation speeds up the construction program, and requires no protection board or root barrier. The instant-setting, seamless membrane allows for complex building design and requires no welds, laps, termination bars or surface flashings. The Prodeq System provides superior waterproofing protection with a variety of overburden solutions, allowing for both design and budget flexibility. The system can be directly trafficked by construction vehicles. The Henry Prodeq System is VOC compliant and has no odor.

\*Warranty may qualify for overburden removal

## Prodeq uses:

- Green Roofs
- Split Slabs
- Plaza Decks
- Planters
- Interior Waterproofing
- Terraces

Green Roof, Brooklyn, NY

Green Roof and Plaza, Philadelphia, PA

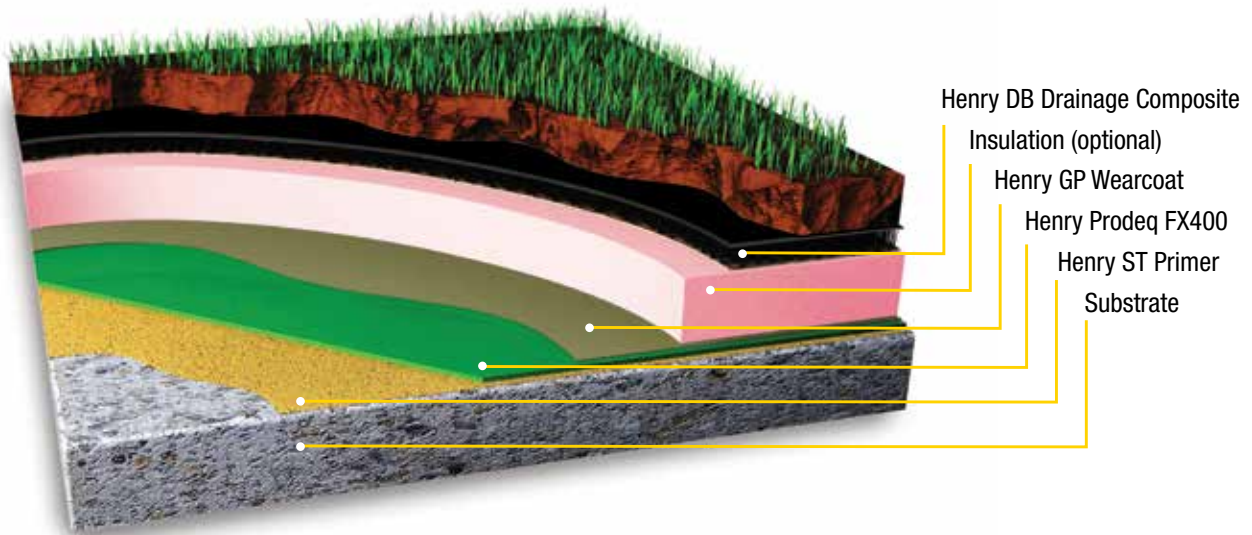

Green Roof, Falls Church, VA

Rooftop, Brooklyn, NY

## Henry Prodeq System installation with a typical Henry Vegetated Roof Assembly

## Henry Total Quality Service

The Henry Prodeq System is an integral part of the advanced waterproofing systems offered by Henry Company and is commonly used for complex and challenging projects. To support installation in these projects, Henry provides its fee-based Total Quality

Service to authorized installers in order to maintain high quality standards from concept to project completion.

As part of the Henry Total Quality Service, we will carry out all necessary inspections, including observing site conditions, surface preparation and profile, and signing off before work can commence. Additionally, Henry offers access to multiple spray rig configurations to meet all jobsite requirements, whether it be a roof terrace or large plaza deck.

For contractors who have their own spray rigs, we offer the same level of service including installation support at the time of application.

This unique installation service is our commitment to maintaining the highest possible standards in liquid applied waterproofing.

Installation of Prodeq FX400 membrane

Split Slab, Manhattan, NY

Rooftop Terraces, Manhattan, NY

Green Roof, Manhattan, NY

With a proven track record in North America since 2000, the Henry Prodeq System provides superior waterproofing protection for plaza decks, green roofs, split slabs and terraces. Contact a Henry Representative today to see how a Prodeq System can help you build with confidence on your next project.
